

Skin

Available from version	1.7.0
Necessity	optional
Usage	/Skin <Path to a skin file>

Description

This parameter is needed if a skin that is to be used is not in the folder with the application as *IBI.aws.Client.Default.iacskin*.

For more details on how to deploy skins, see [Skin file distribution](#).

Example

`IBI.aws.Client.exe /Skin "IBI.aws.Client.yellow.iacskin"`

In this case there must be a skin file named "IBI.aws.Client.yellow.iacskin" in the application folder.
